MEMORANDUM FOR: Project Director

SUBJECT : Acting Project Security Officer's Memorandum  
Concerning CIA Presentation to AFCIN-Z,  
dated 27 February 1958

I should like to add a strong endorsement of the position taken by [ ] in subject memorandum. I am not aware of any written authorization given to [ ] to "brief at will" without the prior approval of the Project Security Officer. Do you think it is possible that [ ] may be confusing the range of matters included in AQUATONE and TALENT, respectively?
